

Listing of Foreign Supervised Providers (by Country)

This listing includes Foreign Supervised Providers we hold current Agreements with or who we have worked with in the past and, based on that past experience, we would feel confident in working with them again.

In some countries, we have established relationships with a Foreign Supervised Provider and we no longer work with anyone else. Those providers are noted by a *.

Before we formally approve your application, we must have a complete file from a Foreign Supervised Provider. In some cases, this person may serve only to verify documents; in others, they may be part of providing one of the 6 designated Hague adoption services.

	Patrick Twinomugisha*	Investigator
United Kingdom	St. Helen's Council	Govt. Org.

Listing of Domestic Supervised Providers:

When a child arrives to the US on a Guardianship Order, rather than a full and finalized Adoption Decree, Frank Adoption Center will have already put in a place a Domestic Supervised Provider Agreement with an agency in a your state of residence. Typically, this is the same agency that completed the home study and their services will now be used to complete Post Placement Reporting, following the individualized state process that will lead to your finalizing your child's adoption in the US.

Below is a list of agencies who we have previously engaged as Domestic Supervised Provider. While we are certainly happy to work with any of these agencies again, you are welcome to choose another agency if you'd like. We do ask that any home study agency be Hague accredited.

STATE	HOME STUDY AGENCY	WEBSITE
California	Bal Jagat	http://www.baljagat.org/
	Family Christian Connections	https://www.fcadoptions.org/
Indiana	St. Elizabeth Coleman Pregnancy and Adoption Services	https://www.givingbirthtohope.org/
